

## HOW TO SCRAMBLE DIALLED NUMBERS (OR ANY OTHER DESCRIPTION FIELD)

There may be occasions when you want to run a Detailed report showing the dialled numbers (or CLI numbers), but you don't want the real numbers to be shown – for example you don't want to see the real phone numbers that the Chairman has dialled, or the phone numbers of the people who called the Chairman.

You can create a new Dialled Number field, giving it the instruction to scramble the number.

Go to Reports>Detailed Fields

Select the Dialled No. field from the list on the left.

If you want to replace the last four digits of the number with Xs you need to type the following: \*\_xxxx

If you want the last four digits to be replaced by random digits you will need to type: \*\_ssss

Amend the description so you know this is the scrambled field.

Then click [Add], then [Exit].

**NOTE: SCRAMBLED FIELDS CAN ONLY BE USED IN DETAILED REPORTS.**

Detailed Report - All Outgoing Calls

Period : 1st Jan 2003 to 31st Mar 2003      Time : 00:00:00 to 23:59:59  
 Group : No Group                                      Exclude : None  
 Filter : Call Type Outgoing                      Sub-Filter: None  
 PBX : All PBXs
